The planks must be installed properly in accordance with Lucida Surfaces® installation instructions. The instructions should be obtained through a retailer or at www.LiveOnLucida.com. Proper installation includes, but is not limited to, the following:

A moisture test must be performed to determine if excessive moisture exists in the subfloor. When installing over concrete, a calcium chloride moisture test must be performed. Readings greater than 5 lbs/1,000 sq. ft./24 hours are unacceptable for installation. If a moisture meter is used, a reading greater than 4.5% is unacceptable.

Surface wear must be readily visible (i.e. approximately 1 square inch). Gloss or sheen reduction is not surface wear and is not covered by these limited warranties.

These limited warranties do not apply to water damage, including but not limited to water damage caused by flooding, standing water (water that remains on planks longer than 30 minutes), leaking pipes, mechanical failures, appliance leaks or pet urine.

These limited warranties do not apply to damage caused by water or moisture in the subfloor or underneath the flooring, including but not limited to damage from subfloor hydrostatic pressure (water or moisture under the planks that is transmitted to the surface through exerted pressure) or other conditions that result in water or moisture being below the floor.

These limited warranties do not apply to moldings.
